附录I 阔叶红松林中大树的叶片性状和叶柄性状的变异在不同水平上的解释度

Supplement I Variance components of lamina traits and petiole traits across different levels in large trees of A broadleaved Korean pine forest

LA, 叶片面积; LDM, 叶片干质量; PDM, 叶柄干质量; PL, 叶柄长。

LA, lamina area; LDM, lamina dry mass; PDM, petiole dry mass; PL, petiole length.
