附录VII 2021–2024年无养分添加、氮添加、磷添加、氮磷共同添加对低海拔群落物种多度效应值及定植和局域丧失的影响
Supplement VII Effects of no nutrient addition, nitrogen addition, phosphorus addition, and combined nitrogen and phosphorus addition on effect size of species abundance, colonization and local loss at low altitude communities from 2021 to 2024

CK, 对照; N, 氮添加; P, 磷添加; NP, 氮磷共同添加。

CK, control; N, nitrogen addition; P, phosphorus addition; NP, nitrogen and phosphorus addition.
